Teslin School Renamed

On September 4th, 2018, Teslin Tlingit Council, the Teslin School Council, students, parents and Teslin residents are celebrating the renaming of the Teslin School.

The new name is the Tlingit name of the late Billy Fox, a respected and beloved member of the community who was a

proponent of a school in Teslin. The name Khàtìnas.àxh was Billy Fox's Tlingit name. It is a Kookhittaana Clan name, which means "A raven that can be heard a long time after he is gone. He still makes noise like an echo."

Khàtìnas.àxh,
(pronounced "Kaw keen ah sa").

Teslin Tlingit Council

Message from Naa Shaáde Háni

We send condolences to the community and to the families who have lost loved ones. We continue to hold up our people in their times of sorrow. We carry the memories and teachings they have given us forward to generations coming after us. We must continue to help one another, visit with Elders, and be of support to those in need.

On September 4th, 2018, TTC along with Teslin School Council, students, parents and community residents celebrated the renaming of the Teslin School. Khàtinas.àxh Community School is the new name. It was an honor to be a part of the unveiling ceremony of the sign. We were joined by Alex Fox Sr, who is the son of Mr. Billy Fox. The new name is the Tlingit name of the late Billy Fox, a respected and beloved member of the community who was a proponent of a school in Teslin. The name Khàtinas.àxh was Billy Fox's Tlingit name. It is a Kookhittaán Clan name, which means "A raven that can be heard a long time after he is gone. He still makes noise like an echo."

As of October 17th, Cannabis has been legalized. There is a Cannabis Act, it

has been designed to better protect the health and safety of Canadians, especially youth. The Act includes strict penalties for providing/selling cannabis to youth under the legal age (19yrs). If you possess cannabis, please ensure it is stored in a secure location. To know more about health effects and the Act, please visit www.canada.ca/Cannabis. In the following pages, TTC has provided some information for you. Thank-you Workforce for hosting presentations for staff.

We extend a warm welcome to the Village of Teslin's elected Mayor and Council. Congratulations Mayor Gord Curran and Council members, Clara Jules, Denise Johnston, Juanita Kremer and Trevor Sallis. We look forward to working with you on Community projects and initiatives. Thank-you to the out-going members for the work you have done for Teslin!

TTC is doing final preparations for the November GC being held Nov. 7th and 8th. We encourage all citizens to attend. The evening of the Nov.7th, there will be a feast with various activities. Discussions and presentations at the General Council will include the Salmon Management

Plan, Language Strategy and Leadership Selection.

Halloween is next week, be sure to watch out for the little trick or treaters. Please drive safe. A little tid bit: Nov. 11th will mark a 100 years since WWI, we will remember those who gave their lives for our freedom.

Teslin Tlingit Council would like to extend our warmest welcome to the following new employees that have joined our workforce within the Government. Mary Bob – Admin. Assistant for the Justice department, Roberta Shepherd – Records Administrator and Roxanne Peters – Meals on Wheels Cook for Health & Social.

We thank the Creator for the past summer /fall for the bountiful harvest season. I am happy to see so many people getting their winter meat and berries. With fall coming to an end, we will soon be getting ready for the winter. Wishing everyone enjoys the late fall weather because soon enough the North winds will be howling.

Gunatchîsh yigooiyax'wan!
'Thank you, do your BEST!'

Gunalchéesh, Achéino - Richard

Language Committee Report

Maa sá yee yatee ax xooní Lingít, A X'aká Kwáan,

First I would like to introduce our newly appointed TTC Language & Culture Oversight Committee (LCOC) as established by the Lingít Yoo X'atángi ka Haa Shagóon Act 2017 (LYXHSA 10 & 11).

Gastánt' (Duane Aucoin)
Executive Council

Seit.oo (Pauline Sidney)
Elders Council

Gadzóosdaa (Shania Hogan)
Youth Council

Seil.aat (Martina Sidney)
Justice Council

Yaadachoon (Kim Smarch)
Management Board

K'áank'i (Aggie Johnston)
Gooch (Wolf) fluent speaker

Kèyishí (Bess Cooley)
Yeil (Raven) fluent speaker

Shkooyéil (Tim Hall)
Language Coordinator

The LCOC's mandate is to develop the draft Language & Culture Mandate in consultation with the Elders Council to be presented to the November 2018 General Council for approval. (LYXHSA 12)

The Lingít Yoo X'atángi ka Haa Shagóon mandate is to guide the immediate and long-term annual activities of the Teslin Tlingit Council and to support the government departments' efforts to restore, protect and promote the use and access of Lingít Yoo X'atángi and Haa Shagóon in the homes, clans, and the Teslin Tlingit Council workplace. (LYXHSA 10)

LYXHSA was passed by consensus at the 2017 Annual General Assembly.

3. The purpose of this Act is to

(a) establish Lingít Yoo X'atángi as the official language of the Teslin Tlingit Council;

(b) develop a process to support the revitalization, access and use of Lingít Yoo

X'atángi and Haa Shagóon by citizens, clans and employees of the Teslin Tlingit Council; and,

(c) identify the responsibilities and obligations of the Teslin Tlingit Council, citizens and clans to support the access and use of Lingít Yoo X'atángi and Haa Shagóon.

The LCOC on July 9, 2018 appointed myself, *Gastánt'*, as the Chair according to 4.1 of the LCOC Terms of Reference.

On July 24th & 26th the LCOC met with Citizens in Teslin and Whitehorse to begin our work and introduce ourselves. We had a good turnout for the summer and there was much excitement and interest in this important task.

The LCOC hosted a Language & Culture Summit at Brook's Brook on Friday, August 24 and ended on Sunday, August 26th. The purpose of this meeting was to begin working on the Language and Culture Mandate as described in the Act.

We had elders, adults & youth from both Teslin & Whitehorse attend to assist us in this important work. We also got help two UBC linguists: Dzéiwsh (James Crippen), a Deisheetaan Lingít from Wrangell who is a PHD candidate in Linguistics at UBC, and Éedaa (Heather Burge) Gaanaxteidí from Klukwan who specializes in Language revitalization.

We also had Skàydu.û (Tina Jules) to walk us through all the work that she, Khàgané Connie Jules), Ga'áa (Doud Smarch Jr.), and Shkooyéil (Tim Hall) did to develop the Teslin Tlingit Language Strategy that was passed by the 2016 General Assembly.

We then got down to work on discussing how to save our precious language & culture. Over the whole weekend we received much valuable advice & insight from everyone there which greatly helped us in our work.

The LCOC then started a round of meetings to begin drafting the Language & Culture Implementation Plan. During this time we also hosted a Language Workshop with Dzéiwsh, Éedaa, Rose-Marie Déchaine &

Rose Underhill from UBC on Fri, Sept 21 at the Longhouse. We again had another great turnout. The next day the LCOC met with them to review our work so far. They were very impressed & said that there is no where else attempting what we're doing: a community wide intergenerational implementation plan to restore Lingít as the language that everyone once again speaks & our Haa Kusteeyí as the culture that everyone knows & lives.

On Tuesday, Sept 25th we then met with the Elder's Council to review with them our work so far. They too were very happy with the draft plan that's being developed. As they said..."enough talk, talk, talk...it's now time to do, do, DO!"

We are scheduling a meeting with all our appointing bodies on October 4th to do one final review before we send it out to all of our Citizens.

We will be planning to once again meet with the Elder's Council at their next meeting on October 17th.

We will also be planning 2 dinner meetings to meet with our Citizens to present our final Draft Plan.

Tues, Oct 23 – Teslin Longhouse at 5pm

Wed, Oct 24 – Whitehorse Office at 5pm

Dinner will be served at both locations.

We will also be available to meet with the clans before November's General Council to discuss the draft implementation plan.

At the November General Council the final draft implementation plan will be presented for approval. Once it's approved then we can really begin the vital work of saving our precious language & culture!

Please feel free to contact myself or anyone from the Committee or Shkooyéil to discuss this further or if you have any thoughts or comments to help with this.

Aatlein gunalchéesh ka yee gu.aa yax x'wán,
Gastánt'

TTC is Accepting Applications for Market Based Housing

Mortgage Categories are:

- Construction
- Purchase
- Refinancing
- Renovations

Teslin Tlingit Council Market Based housing program has been developed in conjunction with the First Nations Market Housing Fund and approved lenders.

The objective of the program is to provide TTC Citizens access to affordable and competitive mortgages and loans in order

to build, purchase, renovate or refinance homes on TTC Settlement Lands.

In order to make the process simple and understandable, an orientation package has been developed to assist you with the planning of your build, purchase, renovation or refinancing. This package is available at the Capital & Infrastructure Office year round. Please feel free to come and visit our office to pick up your package.

Support staff will be available to assist you in any way to fill your application out

completely and properly.

We will also be holding a Housing Forum in November and January in Teslin, December and February in Whitehorse. Please attend one of these sessions if you plan to build, purchase or renovate. Meeting place and dates is to be determined and we will keep you informed.

Cut off date for the Housing Grant Application for the new fiscal year is March 8, 2019 at 4:00 p.m.

If any questions or concerns please feel free to phone 867-390-2532 ext. 391 or 395.

Teslin EMS – We Need You!

Are you interested in giving back to your community?

Teslin EMS is looking for volunteers that are interested in having a big impact on the Community of Teslin and surrounding area. We provide all Uniform & Safety items. Training is provide and paid for.

You would have the opportunity to work with a great group of people. Right now our crew is very small and we cannot met the community needs, we have many days each month that we have NO coverage in Teslin. Don't wait until it is your family member that needs our service and has to wait a minimum of 2.5 hours for an ambulance to come out from Whitehorse.

GET INVOLVED NOW!

If you are interested or have questions give me a call
Patty 334-3047 or 390-2101.

Lands Update

Salmon Management Update

The end of the 2018 Chinook salmon season has come. The final number for boarder escapement at the eagle sonar was just over 58,000 fish, on track with in season predictions.

August was a busy month for the Deadman Creek restoration project. TTC and EDI staff were hard at work collecting Morley river brood stock for eggs and milt and prepping egg planting sites in both Deadman and Morley. The team successfully planted just over 36,000 eggs, with a third of them going

back into Morley to offset the egg take. Site monitoring and data collection will continue into the fall and winter months.

The first year of the upper Teslin telemetry project was successful with all 60 radio tags deployed and genetic samples collected. Flying over the watershed, TTC and EDI staff used radio receivers to track the tagged salmon. 59 out of 60 tags were located and the data collected from this project will be used to find spawning areas similar to Deadman creek that could benefit from restoration activities.

Moose Management

TTC has continued to work towards Moose Management in the Traditional Territory. This year, General Council passed a resolution (#2018-016) that has provided a mandate for the Department of Lands and Resources to continue the voluntary restrictions on moose harvest by Citizens, restrict moose harvest by non-Citizens on Settlement Lands, develop moose management plans for the Traditional Territory, reduce harvest by licensed hunters, and complete the food security strategy.

Additionally, the resolution directs the Department of Lands and Resources to implement mandatory harvest reporting by citizens, as well as increased monitoring of moose harvest. The Moose Harvest Data Collection program will be carried out later this fall, and at that time, hunters will be contacted by Lands and Resources staff and asked about their moose harvest.

The Department of Lands and Resources thanks Teslin hunters for their participation in TTC's moose management programs, and will continue to work diligently to protect and preserve our Traditional Territory

2018 harvest season: Congrats to these three young gentleman on their first moose harvest! Very proud of you all!

Morley Lake Hunting Camp

This year's hunting camp took place in Morley Lake. TTC helped to set up a camp with food, gas and gear to help citizens hunt. A truck along with a boat and 4 wheeler were provided for hunting. The camp ground was full of hunters from all over. People enjoyed the beautiful weather and with a little luck, some fresh moose meat. Nothing beats the smell of moose guts cooking and fresh tenderloin being fried. The hunters were busy smoking meat, wrapping and labeling packages until the late night hours.

Many youth were able to watch and learn how to dress a moose. Watching beavers and porcupines and grouse be cleaned. Making memories to last a life time. Stories and jokes were told of times long gone. So many laughs were to be had by all in attendance. Jackie Smarch could not stop smiling. He was ready to head to camp bright and early every day. Thank you to TTC and the workers who help make this camp so successful. Special thanks to Dale and the healing center staff for their generous support in helping citizens get back out on the land.

Department Updates

Trapper Support Program

Call for Applications

Application Deadline:

Monday November 5th by 4pm

“The Trapper Support Program is intended to support the ability of TTC Citizens to be successful in their pursuit of commercial trapping activities, by addressing identified barriers to this success.”

Copies of the Trapper Support Policy and applications are available at the Lands and Resources office, or electronically by contacting the Lands and Resources office. Please submit applications to the Lands and Resources office in person, by fax at (867) 390-2116, or by email.

Applicants are encouraged to meet with the Renewable Resources Coordinator if they require assistance with their application prior to submitting. Applications will then be reviewed by the Teslin Tlingit Renewable Resources Council.

For further information or assistance, please contact James McGrath at (867) 390-2532 ext. 376, or by email at James.McGrath@ttc-teslin.com.

The Trapper Support Program is intended to support the ability of TTC Citizens to be successful in their pursuit of commercial trapping activities, by addressing identified barriers to this success. Support to local trappers is to be consistent with TTC's goals and management plans and strategies.

Support offered through this program must fall within an established budget and work-plan and enable self-reliance.

Eligibility: The program applies to Citizens of TTC who participate in, or have demonstrated an interest in, trapping activities.

Council of Yukon
First Nations

New Course! **LANGUAGE REVITALIZATION TRAINING** **FNLG 335 Special Topics in Language**

The Yukon Native Language Centre (YNLC) - Council of Yukon First Nations (CYFN) and Simon Fraser University (SFU) partner to offer a new course at the Centre.

DECEMBER 3 TO 7, 2018

9:00 a.m. to 4:00 p.m. daily

Location: To be determined

Description of Language Revitalization Training: (SFU COURSE – FNLG 335)

This course will offer training in best practices and experiences in language revitalization for members of Yukon First Nations engaged in planning, coordinating and implementing First Nations language revitalization programs in their communities. It is also suitable for individuals – both learners and fluent speakers/elders - who have embarked on the path of teaching or learning their language as individuals or as part of community language training initiatives.

We will begin with an overview of the historical aspects and consequences of language loss as these have affected Indigenous peoples world-wide, and as they are continuing to affect them. We will then focus on how this situation manifests itself for and at particular First Nations. In light of the devastating consequences of language loss and language shift, we will discuss why it is important to maintain Indigenous languages in their connection to traditional knowledge, identity, environment, health and other factors. As well, this course looks at contemporary issues, philosophical considerations, best practices and advice from experts with a similar language reality context.

Next, we will examine Indigenous language revitalization models across the spectrum from pre-school to adults in various settings – Aotea Roa, Hawai'i, North America – and what they have to offer for Yukon Indigenous language revitalization. Participants will determine what, for their own situations, are the inspiration they can draw from such models, but also what are the challenges, and how to articulate such insights into a "vitality assessment" and revitalization plan for their language. We will next consider what are best practices in language learning and teaching approaches in successful models, and how these can be articulated as curriculum frameworks. Finally, we will approach best practices and successes in language learning from the point of view of proficiency assessment and mapping out individual paths to language fluency and language proficiency, and what are best practices and feasible approaches to learning and re-learning – whether for novice learners, intermediate learners or silent speakers.

Council of Yukon First Nations

New Course! **MENTOR APPRENTICE PROGRAM (MAP)** **TRAIN THE TRAINER**

NOVEMBER 1-3, 2018

9:00 a.m. to 4:00 p.m. daily

Location: Whitehorse, Yukon

Description of TRAIN THE TRAINER course for the MENTOR APPRENTICE PROGRAM

All eight Yukon First Nations languages are in need of community-based language proficiency programs that will increase the number of speakers. Mentor-Apprentice learning has been shown to be an effective and productive approach to building proficiency among adult First Nations language learners. In MAP learning, individual learners, or sometimes small groups of learners, team up with a fluent speaker to engage in language learning focused on "immersion sets" and real-life language tasks. YNLC's Mentor-Apprentice Train-the-Trainer program will be developed and offered with the aim to create Mentor-Apprentice Program (MAP) trainers and coordinators that will work directly in and with Yukon First Nations. Upon completion of the MAP train-the-trainer workshop and with the help of a handbook and workbook, community trainers/coordinators will be able to design, deliver and evaluate Mentor-Apprentice programs at the community level, working with local MAP teams that may include language teachers, coordinators, language nest staff, and immersion camp coordinators. Beyond the skills of supervising and enabling local MAP programs, community trainers will create positive energy and momentum for language revitalization at the community level, and will work with language revitalization program administrators, teachers, language coordinators, language nest staff, immersion camp coordinators, and advocates. Participants of the MAP train-the-trainer workshop will learn how to:

- Design, test and implement a local MAP program in their First Nation
- Help students with MAP session set up and scheduling
- Conduct, with the help of one or more fluent speakers, oral proficiency assessments based on ACTFL and similar formats
- Assist students with completing learning logs, and monitor and evaluate the progress of MAP learners on the basis of completed learning logs

Students please bring:

Binder with tabs, memory stick, recorder, laptop/Ipad.

This course is non-credit. Please contact YNLC to confirm your seat at (867) 668-8820 or info@ynlc.ca.

Upcoming Teslin Campus Course

Professional Office Practice Series

Each course in this series will be delivered in a series of independent workshops, each for a 2-day period. Participants may choose to register for all of the workshop deliveries or choose one or more of the workshops to meet their needs.

Courses in series:

- **Organizational Dynamics** - October 23-24, 2018
- **Time Management** - November 28-29, 2018
- **Decision-Making** - January 23-24, 2019
- **Leading Effective Meetings** - February 19-20, 2019
- **Proposal-Writing** - March 5-6, 2019

Dates and Times

Series of 2-day workshops
October 2018 to March 2019
9am-4:30pm

Tuition and Fees

Each workshop will cost
\$199 plus gst

Cranberry Harvest

I checked for cranberries earlier this summer. There weren't even berry blossoms! I was surprised to see these berries 2 weekends ago. I was grateful to pick a few and they taste delicious! Thanksgiving... "They were few and far between."
